. ., my menu bar disappears and I am forced to quit PyCharm. I've tried switching to the mac and I don't see this problem. I tried running it in the command line, but that doesn't give me any errors. Any ideas? A: Make sure you are using the latest version of PyCharm, and that you've copied and installed the Windows Python 2.7 interpreter to the C:\Python27\ folder. You should be able to locate the installer by searching for Python on Google. Analysis of the impacts of solar ultraviolet-B radiation on water quality and ecological dynamics in Lake Taihu, China. Lake Taihu is the third largest freshwater lake in China and is threatened by water quality deterioration due to various pollutants and contaminants. Here, we studied the impacts of ultraviolet-B (UV-B) radiation on the water quality and ecological dynamics of Lake Taihu, which is a typical lake in China. The monthly mean UV-B radiation was related to a sequence of satellite-based indices, including clouds and precipitation, solar radiation, and incoming shortwave radiation. Results showed that the concentrations of the contaminants and other parameters followed similar trends in the water quality of Lake Taihu. The pollutants in the water had the highest concentrations during the heating season in spring, with a peak in summer. In contrast, the levels of dissolved oxygen (DO) and biological oxygen demand (BOD) were higher in the warm seasons than the cold seasons. Compared to the other seasons, DO was significantly higher in May, and BOD significantly higher in June. BOD was negatively correlated with the variation in the monthly mean UV-B radiation, which indicated that an increase in UV-B radiation could reduce the BOD levels in the water. UV-B radiation had a positive correlation with chlorophyll-a levels (r = 0.75, p Q: jQuery scroll to the specific id I'm trying to scroll to the id #content div 82157476af
